Problem Statement

High storage costs and **limited transportation options** make it difficult for international students at Georgia Tech to **access affordable storage**.

Problem Validation

Key Challenges

-  Expensive traditional storage
-  Lack of transportation
-  Inflexible solutions
-  Wasted items

Data-Backed Insights

- **85%** of surveyed international students reported difficulty finding storage
- **78%** of students are willing to store items within 5 miles but lack affordable options
- **Hidden fees and price spikes** make current storage unsustainable

Existing Solutions

& Why they fail

01

Self Storage Units

Expensive, inconvenient locations, seasonality of prices

02

Storage Scholars

Expensive

03

Ad-hoc solutions

Unreliable and informal

Current Options near Georgia Tech

Storage Space	Extra Space Storage	Space Shop Self Storage	Extra Space Storage
Uber Price from Midtown	\$20.99	\$18.95	\$20.98
Distance from Midtown	1.0 mile	0.8 miles	1.5 miles
Facility Price/Month	\$125	\$143	\$87

Pricing Comparison

OneByFour

\$10 - \$50 / Month

Others

\$58 - \$300 / Month

98% of students who took the survey
said they are **not comfortable** paying the current
market price.

Solution

A peer-to-peer storage platform built for Georgia Tech students

How it works?

01

Hosts (in-state students, faculty, alumni) list available storage.

02

International students book affordable, nearby storage.

03

Secure contracts & payment system ensure safety.

04

Optional transportation services (hosts can charge extra).

05

Long-term: Potential GT partnership for unused campus spaces.

Market Validation

Survey results prove the demand.

International Students

- 92% indicated interest in OnebyFour

Hosts

- 47% of in-state students are willing to offer storage
- 80% have space for 3+ months
- Faculty and alumni interviews confirm openness to renting out storage space

Competitive Edge

Why OnebyFour?

Reason 1

Solves a real,
validated problem
(Students NEED
this!)

Reason 2

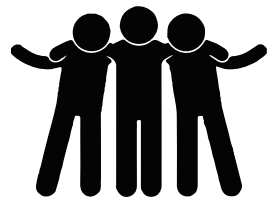

Tech-backed &
scalable (Fully
functional, easy to
expand)

Reason 3

Financially
sustainable (Low-
cost, self-funding)

Reason 4

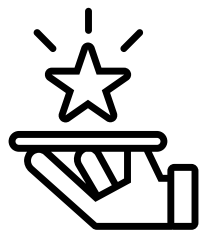

Already built &
tested! (Not just an
idea, but a working
MVP!).

Phase 1 (Nov - Dec): Customer discovery, build MVP, finalize partnerships, onboard initial hosts.

Phase 2 (Jan - Mar): Launch beta, collect feedback, expand GT outreach

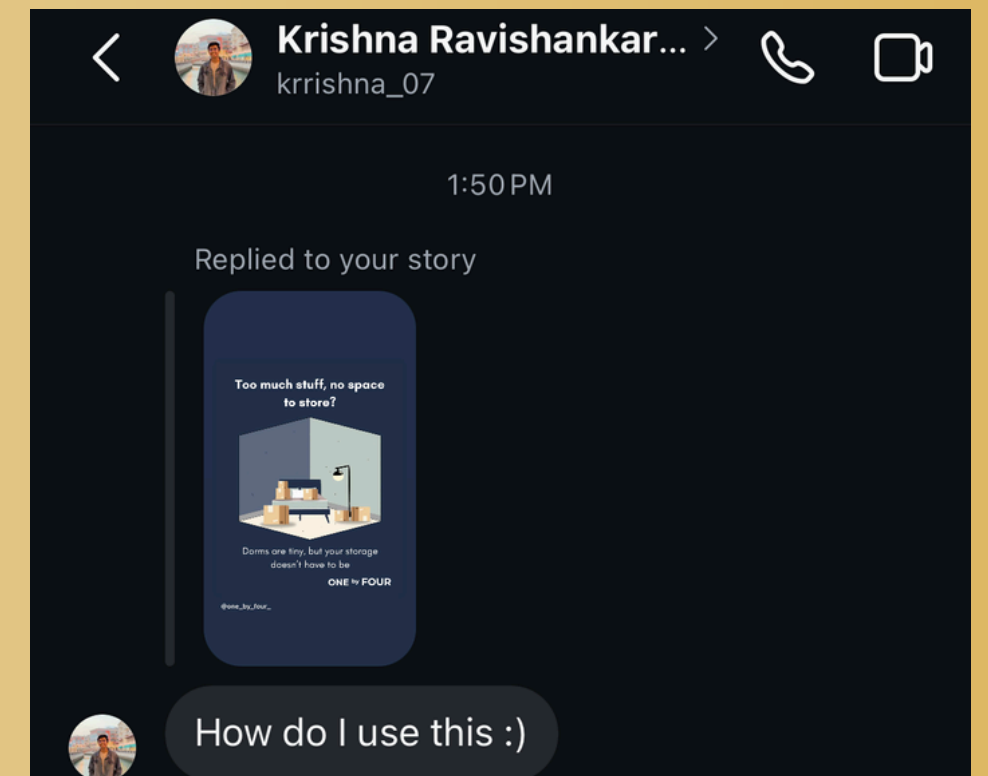

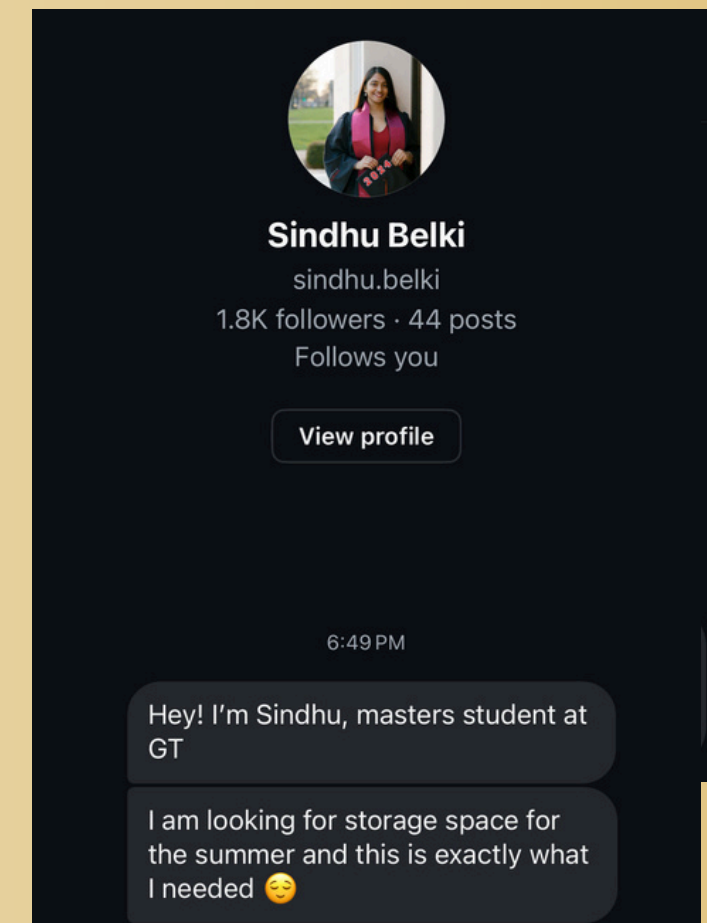

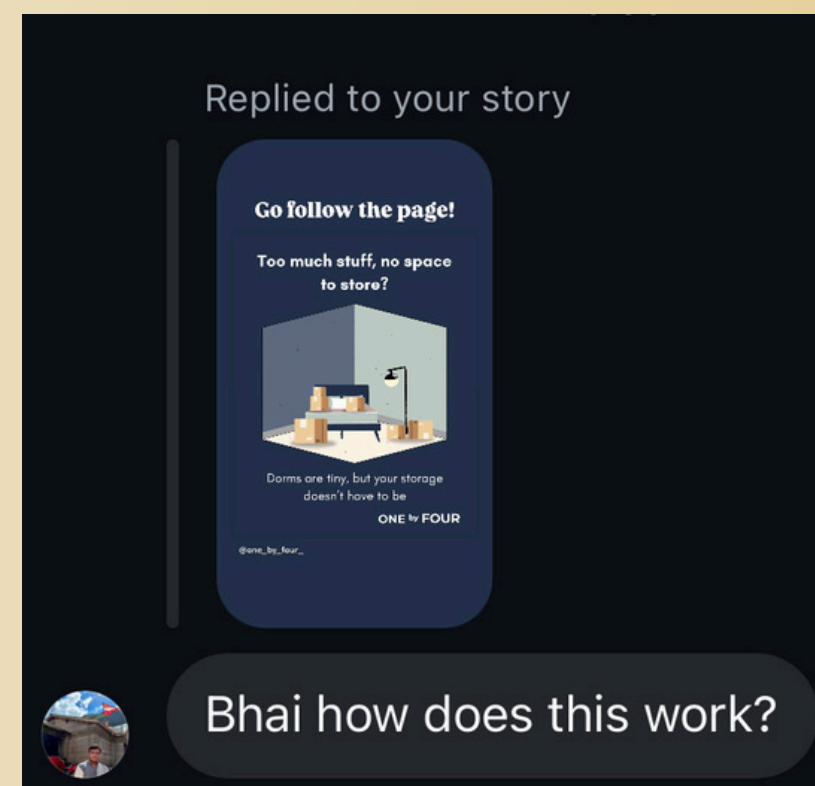

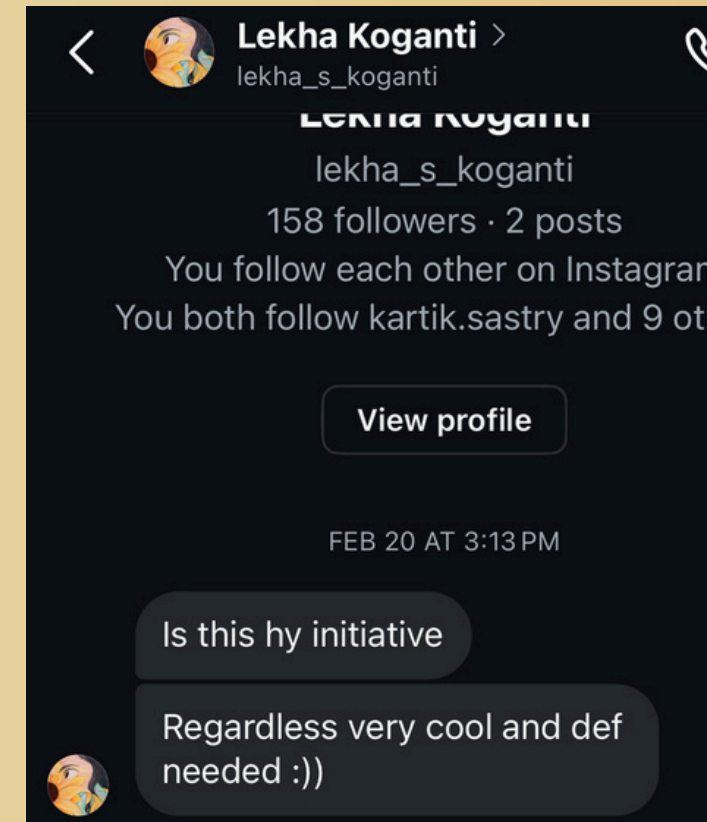

Phase 3 (Apr - May): Full-scale launch to pilot for Summer 2025

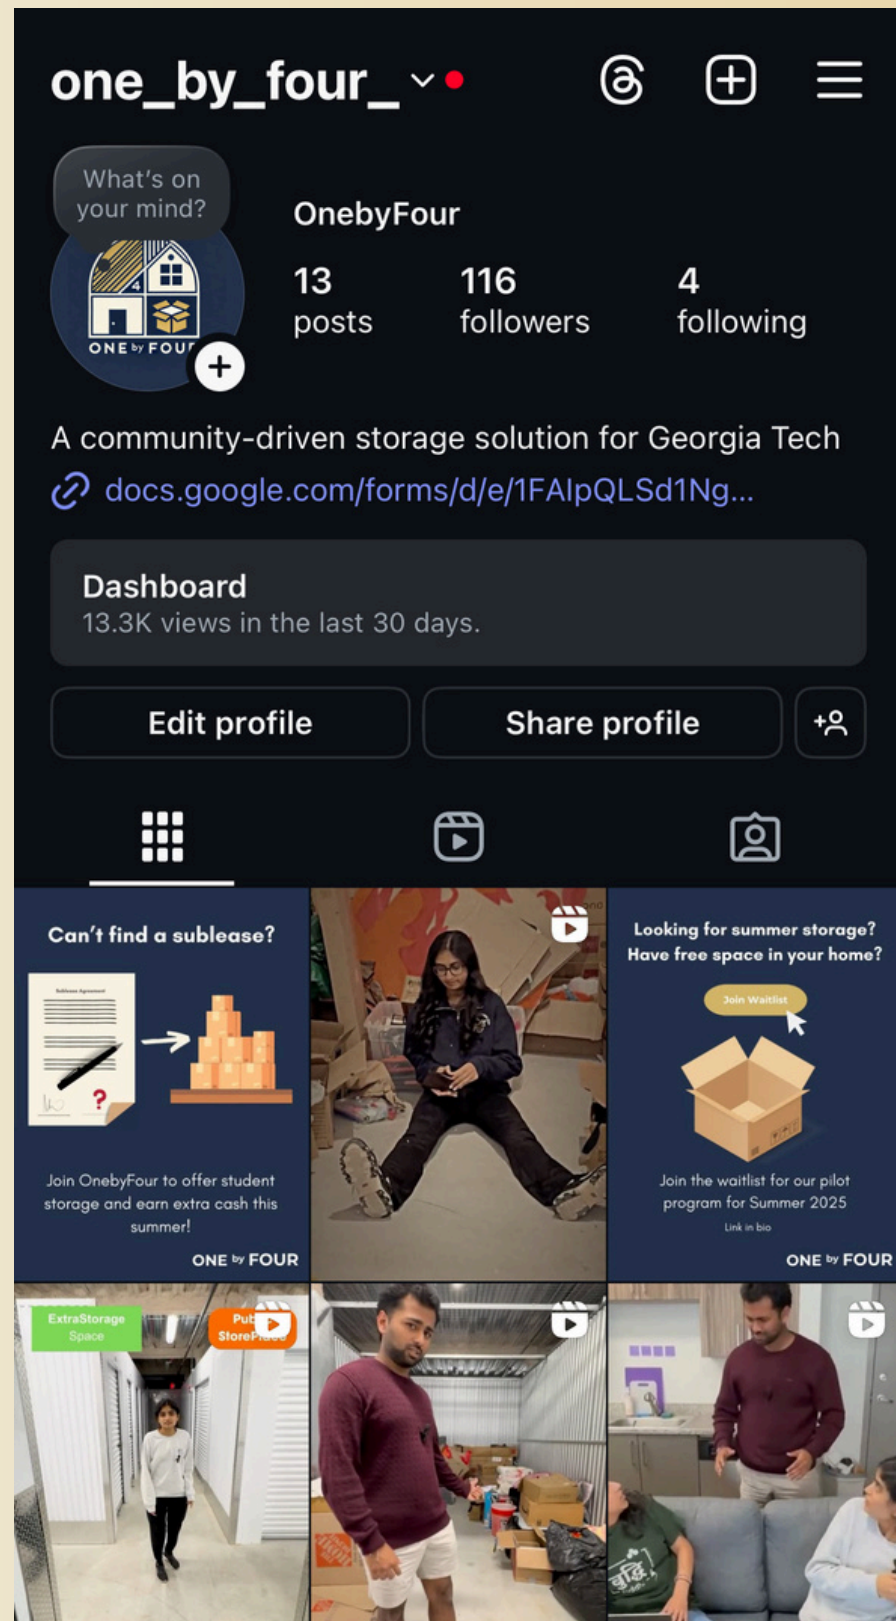

Implementation & Scaling Strategy

Traction

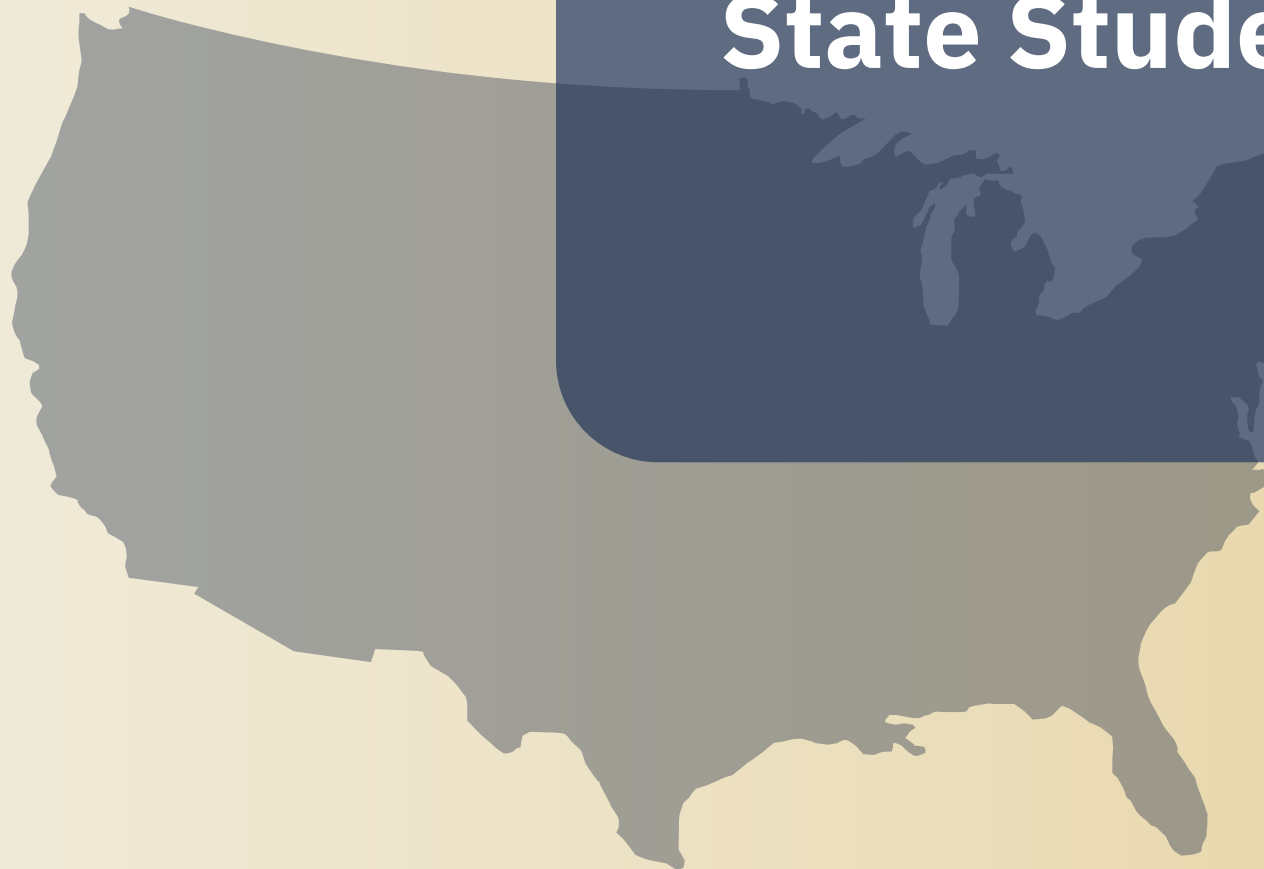

Marketing

Expansion Plans

**Expand to Out of
State Students**

**Use unused Georgia
Tech spaces to store
over the summer**
